2018

COME ON! COME ON!
WAKE UP! WE HAVE TO GO!

Zzzz... Huh? Is it time to eat? Wait... go where?

There are so many things I want to do today!

Like what?

I want to visit a new city, make ice cream floats, dance in the rain, and go to the farmers market!!

WHOA PENNY!
We can't do all of that in one day!
We have all summer for that!

Oh, okay... but let's get a move on because it is gorgeous out. Let's enjoy the day!

Give me 10!

Wake me up for dinner. I am going to go back to napping.

On the next page see Penny's summer bucket list and how Penny and Bill will have fun in the sun this summer without spending a lot.

WISE SPENDING HABITS START EARLY

Anytime and any age is a good time to start teaching your child about money.

Wants vs. Needs

Show your future saver the difference between wants and needs. Needs are the items that you must have in order to live. Wants are items that you like to have but can live without.

Saving vs. Spending

It's up to you to show your child how to save and spend wisely. Go shopping and explain how to comparison-shop.

Share the Budget

If you're comfortable, show your child the family budget. This is the perfect opportunity to teach how quickly cell phones, internet and grocery shopping trips can add up.

COUPON

Strike it rich with these \$100 bill notepads and pencils. Deposit \$5 in your account to receive! Coupon good while supplies last so deposit yours today!
